# READ ME FIRST

This adapter is designed for iPhone/Android smartphones to use Apple CarPlay/Android Auto wirelessly on factory car multimedia system which has built-in wired Apple CarPlay function.

Please refer to the next page for how to check a car has Apple CarPlay or not.

However, NOT every car with built-in CarPlay could fit this adapter. If there is any issue while using the adapter, please do not hesitate to contact us.

<b>Function</b>	Convert OEM Apple CarPlay to Android Auto and CarPlay wirelessly
<b>Compatibility</b>	Cars with OEM Apple CarPlay
<b>Control</b>	OEM touch screen, steering wheel, and joystick control
<b>Input Power</b>	USB 5V
<b>Connectivity</b>	WiFi & Bluetooth

---

## **How to check a car has CarPlay or not**

1. Plug an iPhone (running iOS 10 or newer) into the car USB ports with genuine factory lightning cable. If there is a notification pop up on iPhone like below, that your car has built-in Apple CarPlay.

2. If there is a CarPlay icon in the car stereo menu, that your car has built-in Apple CarPlay.

3. Contact your car dealer for help.

---

## **What's in the box**

- Wireless adapter \*1
- USB cable (Type-C to A) \*1
- USB cable (Type-C to C) \*1
- User manual \*1

---

## Interfaces

- 4 Smart button
  - **Click once:** disconnect wireless AA or CP
  - **Press & hold for 3s then release:** switch to update mode (for Android phone)
  - **Press & hold for 10s:** factory reset, this will erase all data

---

## Connection diagram

or

**NOTE!** The adapter should be plugged into the USB port that is for wired Apple CarPlay/Android Auto connecting if there are multi USB ports in your car.

## User interface

**TIPS!** Pressing the connected-phone list and holding for 3s will allow deleting this device.

---

## **How to set up wireless Android Auto**

Before using Android Auto, please make sure the latest Android Auto app is installed on your smartphone.

- Enable "**wireless Android Auto**" in Android Auto app settings on your Android phone.
- Turn on your smartphone's WiFi / Bluetooth and search BT name "**AUTO-xxxx**" then tap it to pair .
- Confirm the BT pairing request and other notifications
- It will then connect to Android Auto wirelessly after a few seconds.

**NOTE!** Wireless Android Auto is supported on:

- 1.** smartphone running Android 11 or newer with 5GHz Wi-Fi built-in
- 2.** Google phones: Pixel /XL, Pixel 2/2 XL, Pixel 3/3 XL/3a/3a XL, Pixel 4/4 XL/4a, Pixel 5, Pixel 6/6 Pro, Nexus 5X, Nexus 6P;
- 3.** Samsung Galaxy phones: Galaxy S8/S8+, S9/S9+, S10/S10+, S20/S20+/S20 Ultra, S21/S21+/S21 Ultra, Galaxy Note 8, Note 9, Note 10/10+, Note 20/20 Ultra.

---

## **How to set up wireless CarPlay**

- Turn on your iPhone's WiFi and Bluetooth, then pair to the Bluetooth named "**AUTO-xxxx**".
- Tap "**Pair-Allow-Use CarPlay**" on the iPhone pop-up notification.
- It will connect to CarPlay wirelessly after a few seconds.

---

## Settings

- **AA Display Mode**  
Allow setting up the display mode for Android Auto, including split screen and full screen (NOT available for some resolutions such as 800\*480, 1920\*720)

---

- **Auto Connect**

**ON** means every time the adapter start, it will connect to the last Android phone (iPhone) to use wireless Android Auto (CarPlay) automatically.

**OFF** means you need to connect to Android Auto (CarPlay) by manually tapping the device name from the pair list.

- **Clear All History**

This will delete all connected history at once.

---

## **■ Firmware update**

Firmware updating is **NOT** recommended when every function works well.

***NOTE!*** The red and blue indicator lights will flash alternately while updating. Wait for more 30s after light is always on, then disconnect and reconnect the adapter from USB port to finish the whole update.

---

## ● Update on iPhone

- If your iPhone is connecting to the wireless CarPlay, enter **192.168.1.101** on iPhone's browser, next tap "**Update**" if there is an update available.
- If your iPhone could not connect to the wireless CarPlay, please join the adapter's WiFi network [**AUTO-xxxx**] by manual and the password is **88888888**. Next enter **192.168.1.101** on iPhone's browser, and tap "**Update**".

---

## ● Update on Android smartphone

- If you have connected to the Android Auto wirelessly, disable Bluetooth and forget the WiFi network first.
- While powered on, press the button and hold for 3s then release. The led indicator will switch to green light after 1-2 seconds.

- 
- On your phone, go to **WiFi >> Advanced settings >> WiFi direct**, tap [**AUTO-xxxx**] and make sure it has connected.

- Enter **192.168.1.101** on smartphone browser, next tap "**Update**" if there is an update available.

---

## How to report an issue

Any issue while using the adapter, you could directly report the issue online and send us the feedback screenshot. We will fix it as soon as possible.

System Version	
Build Number	21112921.1284.2
Choose Headunit	
Unit Type	Factory OEM CarPlay Unit >
